Description

High-quality house in Jurmala, a quiet area near the river Lielupe.

The house was commissioned in 2005, built from Lode keraterm blocks 250x510x238, wooden floors, roof - bituminous schindler coating. For heating the house, a boiler with pellets is used, the flow of pellets is automatic.

If necessary, a gas connection is available.

Water - borehole (214m).

Sewage - biological.

On the first and second floors the floor is heated.

On the ground floor there is a fireplace.
