Park Side project is situated near Viestura Garden – one of the most beautiful parks of Riga, just in ten minutes walk from the Old Riga. There is a RIMI supermarket and a sports club “Reaktors” next to the building. Walking through Viestura Garden it is possible to reach Andrejsala where there is a yacht wharf and a center of modern art and culture that has already gained the status of a cult place for artists of the young generation. Viestura Garden became a favorite place of walks and rest for Riga’s residents long ago. Nowadays it has preserved its image of a well-kept and ancient park.

Reconstructed part of a former factory’s warehouse expanded with newly built parts of the building. Thus, historic spirit is combined with spaciousness, which is so characteristic for industrial premises with functional layout and modern design elements.

There are parking lot available for each resident.
