Description

We offer a townhouse for sale in Riga. The house is offered with interior decoration - the buyer can choose the color of the walls, the shade of parquet, tiles and sanitary ware.

The House has a separate heating system and a small plot of land in the yard. Heated floors on both floors of the House. The terrace is located on the south side, which will allow you to enjoy the warmth of the sun, as well as a considerable number of large windows in the House, thanks to which the rooms are bright.

Layout: first floor - a kitchen combined with a living room with access to the terrace, an entrance hall, a bathroom, a garage - for storing one car. Second floor - three separate bedrooms, one of which is equipped with an exit to the terrace, a bathroom with toilet.

Near the house there are public transport stops, shops.
