Price: To buy: 265 000 EUR

Description

Exclusive two-storey houses in the new project "Dižozolu nami". The row house project "Dižozolu nami" consists of 6 high-quality, environmentally friendly and energy-efficient house sections. Each stage has its own green area and city communications: water, gas, sewerage, electricity.

The project will be fully completed in September 2022. The project uses modern technical solutions to provide residents with the classic values of housing - comfort, energy efficiency and a safe environment.

Great place for your family, located in one of the most beautiful border areas of Riga - Marupe. A unique link between urban and rural life and a safe place for you and your children. Developed infrastructure.

Thanks to the nearby central streets of Riga - Kārļa Ulmaņa gatve and Lielirbes Street, it is possible to get to the center of Riga quickly and the road to Riga Airport will take only 5 minutes by private vehicle. A well-thought-out place for your family, because there are all the necessary institutions for everyday life: (schools, kindergartens, tennis courts, ice rink, restaurants).
