Description

Wonderful 1-bedroom apartment in the residential complex Sun Terraces for sale!

The project is located in Saulkrasti town, in just 150 m from the seaside. Sun Republic is one of a few projects in Latvia which is situated in such direct closeness to the sea. The complex, which windows and terraces reveal splendid sea views, is truly unique. The landscape has a height difference in 9 meters. By days it is possible to sunbathe, inhaling pure aromas of pine woods and fresh sea breeze on the terraces of the Sun Republic and to enjoy astonishing sunsets by nights. The facades of buildings resemble sandy beaches, dappled with swallows' nests. They are made of materials that resemble sandstone, hollowed out by the waves of the sea. Paths and tracks are paved with squared cobblestones with green moss in between, making for uncommonly regular geometric patterns. The territory, with its unique relief landscape, is rich in plant life. Here mighty oaks and young blossoming trees adjoin to centuries-old pine forests. Next to native grasses flower beds have been laid out.

The project provides security, video surveillance, children playground.

This apartment is located on the 4th floor of the building. Its main advantage - wonderful view to the sea! The apartment consists of a living room, connected to the kitchen and exit to the terrace, 1 bedroom, bathroom and storage room.

The apartment is for sale with full interior design, but without the installed kitchen.
