Price: **Long term rent: 360 EUR**

Description

Compact apartment of 16 square meters will be a real boon for students, young people and young couples who do not want to overpay for extra meters. Bright and comfortable apartments will give comfort to modern people who value their freedom and want to live separately.

In the studio 'Sindija-LUX', the designer applied the newest standards of furniture, created for small apartments. The apartment has compact and folding furniture, ordered in the OTTO catalog. The folded bed turns into a closet, so during the daytime it does not take much space.

Rent of a small studio apartment is suitable for students who like its modern design and unusual furniture. The big advantage of the apartment is its proximity to the most popular educational institutions in Riga: University of Latvia, 'RISEBA' University of Business, Arts and Technology Riga Stradins University, and Riga Technical University.

Also, a small apartment will suit the airport staff, whose work place is located only 10 km from the Apart Hotel. Pilots and stewardesses can rent these apartments in order to rest between flights. They can get to the place of work from the bus stop, which is near the house or by taxi. Owners of the transport can leave their cars in a guarded parking lot.
