Unique concept The Mežaparks Residence covers an area of 31 hectares of the prestigious and picturesque Riga district - Mežaparks, preserving the natural environment and terrain, with harmony between the old Mežaparks and modern design and innovation of the new project. Within the framework of the concept, it is planned to build exclusive villas, twin villas, row houses and low-rise buildings with apartments of the premium class, the design was developed by the well-known architects of Latvia. In addition, you can purchase a land plot for the construction of an individual villa on the project site. Particular attention is paid to landscaping of the park's territory - paved and lighted streets and sidewalks, 24-hour security of the project area, equipped recreation zones - well developed and long-term conveniences for the inhabitants.

Modern apartment buildings with spacious apartments are located in the cozy zone of the complex, next to the row houses. Apartment houses consist of two small buildings with a common underground car park. Big windows and terraces of the apartments make it possible to enjoy the green nature of the Mezaparks.
