Description

We offer a cozy and comfortable apartment in a new project in a quiet part of Jurmala, in the Dzintari area. The proximity of the capital with the unique ecology of the sea city is an ideal compromise for a modern person who values time and cares about the quality of his life. Despite the annual seasonal influx of tourists to the largest Baltic resort, the complex is successfully isolated from the noise of the crowd. To the concert hall "Dzintari" and Jomas street, full of numerous restaurants and cozy cafes, 7-10 minutes leisurely walk.

The project itself is three four-storey buildings with 37 apartments, located in a closed green area with continuous video surveillance and round-the-clock security. The proximity of a pine forest, parks and forest parks give the residents of this project the opportunity to enjoy unlimited walking and cycling, as well as stay in the fresh sea air.

This ad presents a three-room apartment on the first floor of the first building. The total area of the apartment is 82 sq.m., the area of the terrace is 9.60 sq.m. (plan of the apartment in the PDF attachment). The apartment has a gray finish - all communications, sockets, switches, heated floors in bathrooms, intercoms and fire detectors are installed, wires for lighting are brought out. This is your chance to purchase and decorate your home to your liking and live in a location that suits your style and lifestyle perfectly. Radiators with heat supply regulators are installed and connected in each room. Double-chamber windows made of aluminum and wood. The ceiling height is 3 meters, which gives a feeling of spaciousness and freedom.

A storage room is available for each apartment, and it is also possible to purchase a parking space for a car in the underground parking.
