TV: **Yes**
Parking: **Yes**
Alarm system: **Yes**
Alarm system: **Yes**
Intercom: **Yes**
Terrace/Balcony: **Yes**
Price: To buy: 248 000 EUR

Description

The neighborhood of Lake Kisezers has always been one of the most desirable locations...and why not? With fresh pine air, nearby water and peace, and Riga, only a stone's throw away..

This village is made up of high quality townhouses - with this project we wanted to set new standards in building for such types of dwelling. This is the reason why the houses in the new village have neat facades of red bricks with wood insertions, Rukki covering of roofing iron, bricked partition walls between apartments, and a basement underneath the garage, which can be comfortably used as a storehouse. The village is situated on a hill, surrounded by a pine stand, and the bank of a lake with a place for swimming, only a couple of hundred metres from Village

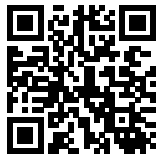

Village consists of 14 houses, with 3 to 5 flats in each. The area of one dwelling is 180 -200 sq.m.

The house is offered for sale with full finishing and build in kitchen.

House has its own garage for 2 cars and a household plot with area of 500 sq.m.

On the second floor of each flat there are three bedrooms, but on the first floor, there is an open-plan living room and kitchen area with an exit to the outside terrace. It is the optimal and most comfortable solution both for families with children and for active business people or new couples. In dwelling there are two bathrooms - one on the upper floor, and a second one on the first floor. In the house is possible to install a real fireplace.

The walls are made of silicate blocks, the floors - reinforced concrete. Heat insulation - stone wool. The outside finish - AS Lode brick. Inner walls are plastered. Windows and doors are wooden glazed units. Electricity, gas heating, water supply and sewage systems.

In Village everything has been considered for your comfort. The community is completely secure with boundary fences and guards. Our territory is carefully tended: it is ensured that inhabitants could, for example, leave grills or loungers on their terraces and know that their property will not be at risk during their absence. Also, if going on longer trip, the owner can be sure that everything will be watched over and tended for. The entire area is well lit. Pedestrian roads are covered with pavement mosaic ornaments...

A settlement is located in 6 kilometers from Riga. In outskirts there is a great number of notable places for rest, sport, and also daily needs. Baltezers church, Restaurant/hotel/SPA „Baltvilla”, Boat base on the lake Lielais Baltezers; Mazais Baltezers, Airdrome Adazi, Hotel of pets Kalndores, Adazi sports Centre, Pool, Mounted Sports Club, Ellits, Wakeboard Club, Promobius, Supermarket ALFA, Port Jaunciems, Adazi Tennis Centre
