Description

Modern and light house for rent in Melluzi, calm area of Jurmala, surrounded by beautiful forest.

House was created by Estonian architect Ralph Tamme and designer Angele Orgusaar and is completely different from any other architecture, that you will see in Jurmala - common historical wooden houses or enormous 2 storey mansions.

House perfectly fits in into surroundings and creates special atmosphere, each room has fantastic panoramic views to the pine tree forest.

Comfortable planning was especially created to enjoy comfort and nature:

On the first floor you have access to the terrace, as well as hall, living room with Swedish fireplace, bathroom, kitchen, dining area, cabinet and guests bedroom, one more bedroom and technical room.

Second floor - two more bedrooms and two bathrooms. It is also possible to use terrace on the roof of the house.
