Price:	To buy: 317 000 EUR

Description

Riga is known as the Pearl of Northern Europe on the shore of the Baltic Sea.

City inside the city, providing a comfortable living space, high-quality business location and a special place to relax. There are two seven-storey residential houses – with 84 flats. The first floors of the buildings will house shops and cafés.

A wide two-level underground car park will meet the needs of residents. Modern elevators will link the car park to flat entrances.

The project has a wide range of high comfort apartments with full finishing. The main feature is the convenient, logical and flexible layout of the flat.

We offer buyers two-, three- and four-room flats ranging from 47 to 118 square meters.

Centrus residential buildings offer a choice of the three most appealing residential interior design trends - classic, cosy and modern.

Residents will have high quality facility management and 24/7 comfort service, helping people in their everyday lives and in emergency situations too.

For convenience, the service will provide privacy, order, security and organization of technical issues in common areas.

Additional to the daily responsibilities, the comfort service will help residents meet personal, social and technical issues. The cleaning of flats, repair, technical support, consumer services, postal and courier services, delivery services, reservations and other daily necessities can be entrusted to the management service that will find the best solutions.

An exclusive location, high-quality architecture, and impeccable quality of buildings, apartments and services – these features characterize Centrus: making life, work and rest here prestigious, special and popular.

Prices: starting from 3300 EUR/sqm.
