Jomas street is one of the central and oldest streets of Jūrmala and it has experienced many changes and transformations during its existence. Jomas iela has become a particular visiting card of the city, the main pedestrian street in Jūrmala, where one can look at others and show oneself. Already during the Soviet period, the processions of the popular resort's festivities went along Jomas iela, and then along Turaidas iela and up to the beach. To the centre of Riga - 20 -25 min by car. Currently the most exclusive and unique project on the real estate market in the Baltics was developed considering the latest trends in architecture and design, specifics of the geographical location and the requirements of the most picky buyer. The villas are completely isolated from each other and have individual heating and ventilation systems, territory illumination and all necessary utilities. The land of the complex with the total area of 5100 m2 is located on the first line in the dune area; the view to the sea opens already from the ground floor. Each villa with the total area of 530 m2 features an underground parking lot for 3+1 cars, wine- cellar, elevator, gym and a glazed terrace revealing an amazing view of the Gulf of Riga and pines on the dunes, as well as a straight exit to the improved beach. The complex of villas "Emelinas 1" offers services of a House Manager for your convenience.
